VERTICAL PRESS

The Coveseer Vertical Press is a professional solution designed for the extraction of must, juices, and liquids from fruit and vegetables, even in highly demanding production environments.

The advanced hydraulic system ensures uniform and powerful pressing, while the stainless steel structure guarantees hygiene, durability, and ease of cleaning.

Available in different sizes, it is suitable for laboratories, agricultural businesses, and food industries that require precision, versatility, and ease of use.

TECHNICAL FEATURES

- Advanced hydraulic system
- Simple and fast cleaning
- Available capacities from 50 to 100 liters
- Easy transport and maintenance
- Quick and easy washing
- Stainless steel structure

ADDITIONAL FEATURES

- Optional trolley for basket transport
- Stainless steel collecting basin
- Corrosion resistance
- Stainless steel pressing plate
- Consistent product quality
- Ideal for must extraction or liquid removal

SYSTEM ADVANTAGES

- ✓ Maximum versatility
- ✓ Operational flexibility
- ✓ Reduced labor costs
- ✓ Automated control
- ✓ Maximum customization

Designed to offer excellent performance, it easily integrates into production lines ensuring constant yields and impeccable quality.

SUITABLE PRODUCTS
